# LOGISTICS AND SUPPLY CHAIN MANAGEMENT SERVICES

# OUR SERVICES

## SUPPLY CHAIN MANAGEMENT

Transafly is a leader in supply chain management, ensuring our clients have consistent, reliable, on-time flow of goods and information that ensures their efficiency and bolsters their bottom line. We make certain that your supply chain is not only efficient; it is as economical as possible.

Transafly assists you with all your supply chain components, ranging from production to product development to the information systems needed to direct these undertakings. Our network of suppliers (that serve as links in the chain) move your products through each stage of your manufacturing process.

- Quality Control and Quality Assurance
- Factory Audit

## LOCAL SERVICES

### Sea Freight – Import and Export

For your large shipments, we offer sea freight services at competitive rates from anywhere around the world to and from Nigeria. Regardless of whether it is less than a container load (LCL) or a full container load (FCL) or Project freight, TRANSAFTY is equipped to clear and deliver your import and export consignments on schedule.

## Air Freight – Import and Export

TRANSAFTY provides safe and reliable Air Freight services. Our Services are highly dependable and have the flexibility to meet the ever-changing needs in the world of Logistics. We offer prompt services with delivery guarantees.

Dealing directly with the airlines, we get you the best and most cost-effective solution and assist you with the documentation you require. We arrange packaging using International Air Transport Association (IATA) standard for hazardous freight and crating of goods ready for transit according to air freight standards and requirements.

With our network of trusted agents around the world, we offer a smooth transit for your urgent freight.

## Haulage and Distribution

We offer reliable, guaranteed, and safe delivery and distribution services to different parts of the country. We have different categories of trucks with different tonnage capacity. These include flat beds, low beds, boxed trucks, and stakes.

Our team of road transport specialists work 24/7 with access to as many vehicles as you may need, to offer you the largest possible range of road delivery service options across the world. No matter the size or weight of your cargo, we can pick them from any location in the fastest possible time.

## Warehousing

We provide both Bonded and Non-Bonded Warehousing Solutions.

We are an eminent, quality-driven; safety focused Third-Party Logistics (3PL) provider that delivers customized warehousing that aligns with your supply chain necessities. We take pride in our pedigree of excellence and our profoundly experienced group of devoted experts who are ready to serve you whenever and wherever.

From secured storage of time-sensitive cargo, general cargo containers, and (LCL/Groupage) shipments, we are your best choice for warehousing

# Project Logistics

We offer Project Logistics services for your projects such as the building of a new factory, refineries, or plants. With years of experience in this field, TRANSAFTY can co-ordinate the whole project delivery timeline to ensure successful delivery of your projects. With the realization that at every stage the project needs to be done on schedule, we guarantee that all gear and materials are followed through on schedule to ensure timely accomplishment of your project.

## INTERNATIONAL SERVICES

### End To End

End-to-end (E2E) covers the entire supply chain process, from production to delivery of goods to the end consumers. Transafty offers end-to-end services, allowing us to bear the burden of ensuring that there is an affordable and seamless flow of your goods to buyers, complete with analytics and feedback that gives you full transparency and control over the products that are shipped. We offer you a single point of contact, instead of having to deal with dozens, or even hundreds, of different companies. From procurement to the final delivery, our end-to-end service delivery has got you covered.

### Product/Supplier Sourcing

Product sourcing is the process by which a business attains stock to sell. This means looking for quality products sold at low prices with large mark-up potential. Transafty helps you to find qualifying suppliers, develop samples, negotiate contract terms, complete quality control during production, and coordinate shipping.

We have the global presence and experience necessary to help you source for your goods. We will find the best products at the best price on your behalf. Our hiring cost is competitive. No matter the quality or attribute of your product, we will source for it on your behalf.

### Quality Control and Quality Assurance

Quality assurance and quality control services assure the quality of all materials, structures, components, and systems utilized in the construction, manufacturing, and operation of your industrial facilities.

As a leading provider of quality assurance and quality control services, Transafty offers you unrivaled experience stretching across every industry. With state-of-the-art resources and expertise and a unique global network, we will provide you with superior QA/QC services. As a result, we will help you guarantee quality throughout your entire supply chain.

### Forwarding

Our freight forwarding helps you with the coordination and shipment of your raw materials and finished goods from your supplier or manufacturer's location to you via a single or multiple carriers via air, marine, rail and/or road. We efficiently handle your international shipments and have expertise in preparing and processing customs documentation and performing activities pertaining to international shipments including customs brokerage, shipment tracking, negotiating, cargo space scheduling, warehousing, consolidation, and cargo insurance.

## We can help you:

- Assure the quality of all equipment, materials, structures, components, and systems utilized in the construction, manufacturing, and operation of all types of industrial facilities
- Comply with all relevant quality standards and regulations
- Verify materials, parts and final products through independent checks, audits, inspections and witnessing
- Benefit from quality assurance and quality control (QA/QC) both off-site at manufacturers' facilities and on-site during the construction process

## Factory Audit

We perform factory audits to evaluate the quality system and compliance level of your supplier. We help our clients verify the capability and suitability of their suppliers. This factory assessment is usually conducted by an internal or external quality auditor or factory auditor. Typically, these services would start out with a standard supplier evaluation or factory assessment and trigger a process of continuous improvement.

As you select new vendors, reduce the number of your vendors to more manageable levels and improve overall performance, our factory and supplier audit services provide an effective way to enhance this process at a reduced cost.

## What we check:

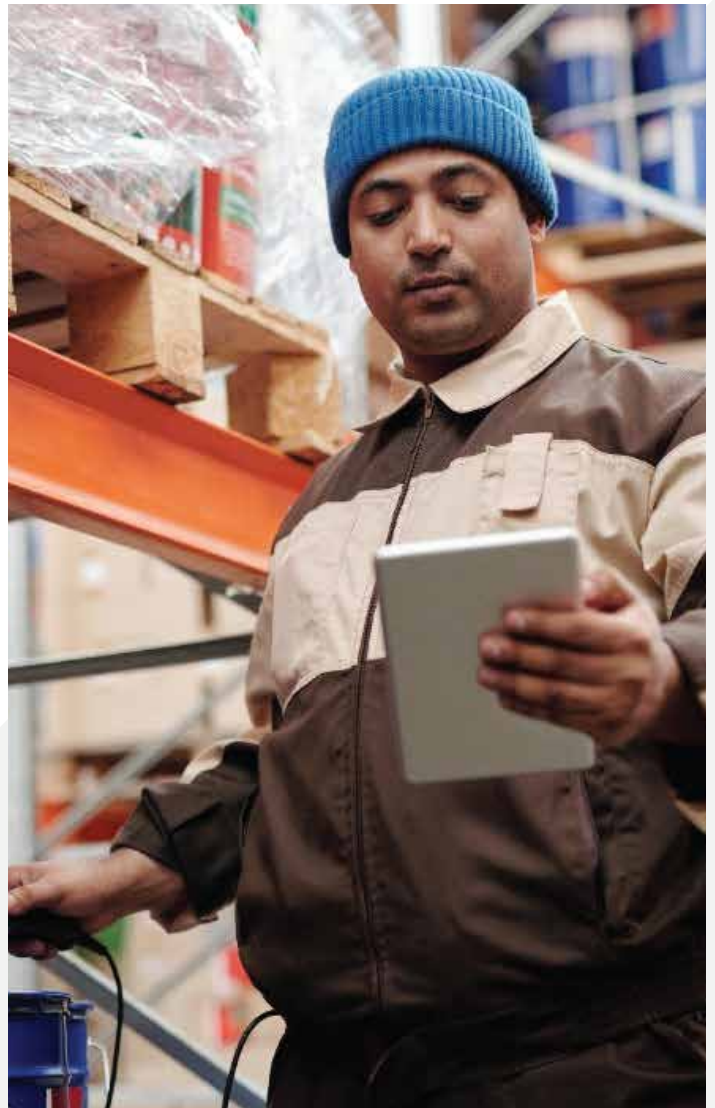

- » Manufacturer's background
- » Manpower
- » Production capability
- » Machine, facilities & equipment

- » Manufacturing process & production line
- » In-house quality system such as testing & inspection
- » Management system & capability
- » Environment

We have created a structured system to aid all your business's logistics concerns, with a team of highly skilled, experienced and dedicated staff. We handle everything that will make your logistics and supply chain processes seamless and cost-effective.

The littlest details missed could cost the biggest monetary losses where logistics is concerned. This is why you cannot afford to be casual in your choice of logistics agents. Transafty is your best choice.

Call us today for any of the above services, let's do business.
